

INDUSTRY ACCELERATORS PROGRAM FROM WORKDAY Industry Accelerator for Healthcare

As a healthcare organization, you need a cloud partner who can meet your specific industry needs with solutions that support your mission.

The right partner understands the complexities healthcare providers face, helps you move beyond legacy enterprise resource planning (ERP) systems to the cloud, and commits to driving ongoing value. With the Industry Accelerator for Healthcare, you get an ecosystem of trusted partners who do just that. In collaboration with global system integrators (GSIs) and independent software vendors (ISVs), Workday takes a three-prong, industry-led approach to successful digital transformation.

We create reports with Workday Supply Chain Management to flag red-level stock—low levels on certain items—so we can start replenishment efforts before running out.

David Farrell
Vice President, Supply Chain,
Dayton Children’s Hospital

Accelerate move to the cloud.

With our global partners, we leverage healthcare-specific use cases, digital transformation practices, and cloud migration tools to get you to the cloud and generating value—fast.

Scale with open ecosystems.

Our open and interoperable platform connects across the healthcare technology ecosystem to lower risk and make integrations easy. Modernize at your pace and deliver the capabilities you need, your way, with proven solutions.

Innovate with your peers.

We achieve so much more as a community. With all Workday healthcare customers on the same version of our software, we can innovate together with partners on healthcare-specific priorities.

A proven pathway to the cloud for healthcare.

Improved nurse retention by 50% within one year.

Cut 4 weeks from the request for proposal (RFP) process that once took 12 weeks or more; made RFPs more competitive and more equitable.

Reduced close and reporting process time by 40% with 7 fewer full-time equivalents (FTE); estimated savings of \$1M in reapplied work.

What you can achieve.

We've reimagined enterprise software with a unified, cloud-based system for finance, HR, supply chain, planning, and analytics. Because of our unique architecture, in partnership with Workday-certified GSIs and ISVs, you get a comprehensive solution that accelerates your digital transformation.

Workforce for the future of health.

Attract, retain, and engage the talent you need to care for patients today and in the future. Workday helps you streamline onboarding to get clinicians on the floor faster, while skills-based development and career paths surface opportunities that boost retention. With our Industry Accelerator for Healthcare, you can optimize your workforce to practice at the top of their license, simplify scheduling, and boost satisfaction.

Resilient healthcare supply chain.

Boost resilience in the face of ongoing supply chain disruption. With Workday, you can increase supplier diversity and engagement, preapprove alternates, and reduce supply-related risk to ensure patient safety and prevent procedure delays. Our Industry Accelerator for Healthcare enables you to improve item and price accuracy as well as automate electronic ordering and invoicing, so you can move toward a clinically driven supply chain with cost-saving efficiency.

Financially sustainable care delivery.

Overcome margin pressures to sustain your mission of care. Only Workday delivers live financial insights that let you continuously monitor performance with automated efficiencies so you can scale financial operations for growth. The Industry Accelerator for Healthcare helps simplify grants tracking for researchers while enabling you to manage twice as many awards with existing staff. Add in rapid M&A integration and the ability to adapt accounting for new ventures or innovative care delivery models, and it's clear how we accelerate value for you.

Insights for a value-based world.

Blended analytics and advanced planning capabilities are key to driving better and faster decisions. Workday provides an intelligent data foundation to surface insight into supply utilization, service line performance, and other drivers of profitability. And our Industry Accelerator for Healthcare enables you to forecast patient volumes, embrace demand planning based on scheduled procedures and trends, and model scenarios built on healthcare-specific drivers so your organization can thrive in a changing world.
